

PowerPusher®

If It Rolls...We Can Move It.™

Extra-Duty PowerPusher™

Battery-Powered Material Handling Equipment

The **Extra-Duty PowerPusher™** improves operator safety, reduces manpower and increases plant floor productivity with less downtime by transporting heavy loads fast and without excess exertion or muscle strain. A single operator can maneuver from 500 pounds up to 25,000 pounds with total control. The electrically powered, compact tug replaces large, expensive material handling equipment, such as fork lifts and tractors. With a wide range of standard or custom attachments available, the tugs are a scalable, flexible solution built to meet specific load requirements.
