

# Power Pusher

## E-750 Electric Wheelbarrow

The Power Pusher **E-750 Electric Wheelbarrow** is designed to safely and easily transport loads weighing up to 1000 pounds. Available with a galvanized steel tub or heavy-duty, high-density poly tub, the wheelbarrow improves safety and efficiency by eliminating ergonomic challenges and unnecessary production delays that are associated with manually operated wheelbarrows. Designed to minimize strain, the E-750 provides push-button powered dump capability. It is the perfect piece of equipment for construction, demolition, landscape, farms and more with multiple standard and custom attachments available.

Electric Wheelbarrow

# E-750 Electric Wheelbarrow

## FEATURES & BENEFITS

- The motor, powered by "2" 12-Volt Rechargeable Group 27 Deep Cycle Marine Batteries, can run five-miles on one charge
- Hauling up to 1000 pounds increases efficiency
- Silent motor with no emissions is suitable for indoor or outdoor use, fitting through standard doors
- Moving at speeds up to 4-miles-per-hour is much faster than standard wheelbarrows
- Powered dump feature allows users to unload materials with the push of a button
- Durable, reliable construction is suitable for rocks, bricks, sand and concrete, fertilizer, sod, soil, mulch, construction debris, feed, hay and many other materials
- Multiple standard and custom attachments available

Standard Poly Tub Attachment

Galvanized Steel Tub Attachment

| MACHINE SPECIFICATIONS |   |                            |
|------------------------|---|----------------------------|
| Load Capacity:         | 1000 lbs.   |                            |
| Width:                 | 31-1/2 inches   |                            |
