

Power Pusher™

ET-100 & ET-105 Carts

**Battery-Powered
Material Handling**

The electric **Power Pusher ET-100 Transporter** and **ET-105 Powered Lift Table** both provide a more productive, safer work environment by providing easier warehousing, shipping and supplies management. The battery-powered ET-100 can transport loads weighing up to 1,100 pounds, and it features an on-board battery charger. The ET-105—a mobile, temporary table with adjustable height—also has a 1,100-pound capacity and serves multiple functions. It can operate as a temporary workstation or it can hold and raise equipment and parts, making a variety of tasks more manageable.

Power Pusher ET-100 & ET-105 Carts

ET-100 FEATURES AND BENEFITS

- A front-wheel transaxle drive provides powerful, easy turning and maneuvering regardless of the load weight
- Battery gauge that accurately indicates power level, making charging management flexible
- Roller Grip variable speed settings for convenient, responsive reverse and forward motion
- A top speed adjustment allows for the most appropriate settings based on individual applications, settings and needs
- Optional free wheel mode provides unrestricted wheel rotation when necessary
- An emergency stop bump switch when immediate stopping is required to prevent accidents or injuries
- Automatic brakes help prevent collisions or damage that could have otherwise been unavoidable

ACCESSORIES

- Wire Shelves
- Totes
- Tote Rack

SPECIFICATIONS

- **Capacity:** 1,100 lbs.
- **Deck Height:** 12.5 inches
- **Speed:** 2.8 mph variable
- **Weight:** 395 lbs.

ET-105 FEATURES AND BENEFITS

- The platform can be raised to any height with the hydraulic lift pump, a foot-operated component that descends slower as weight increases
- A fingertip release allows for smooth lowering at any weight within the table's capacity
- Two swivel casters equipped with brakes and two rigid polyurethane casters provide efficient movement over multiple surfaces
- Rust-resistant frame and platform are made of stainless steel and have a powder coat finish for lasting integrity

SPECIFICATIONS

- **Capacity:** 1,100 lbs.
- **Length:** 35.5 inches
- **Width:** 23.5 inches
- **Lift height minimum:** 11.75 inches
- **Lift height maximum:** 36.5 inches
- **Strokes to maximum height:** 25 strokes
