

**PowerPusher**<sup>®</sup>  
If It Rolls... We Can Move It.<sup>™</sup>

# Automotive

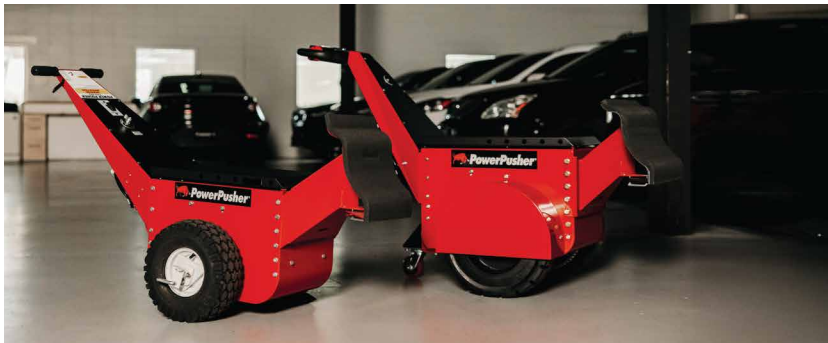

# PowerPusher<sup>®</sup>

## Move Vehicles Safely & Efficiently – Every Time

From dealerships to service centers, the Automotive PowerPusher<sup>™</sup> lineup moves cars, trucks and fleet vehicles up to 55,000 lbs. with ease – reducing strain, improving safety and increasing shop efficiency.

The Automotive PowerPusher<sup>™</sup> Series is built for technicians and service teams who need to move vehicles quickly, precisely, and safely – without starting the engine. Each model is powered by a robust DC motor and features smooth, variable speed control for effortless handling on any surface. Designed to eliminate the need for multiple operators, PowerPusher products let two people accomplish the work of three to five — boosting productivity, cutting labor costs, and reducing injury risk.

### Ideal For

Dealerships | Service Centers | Fleet Garages | Auto Plants

## Why PowerPusher?

### Boost Productivity

Move immobilized vehicles with just two operators

### Built to Last

Industrial-grade components and minimal maintenance

### All-Day Power

Battery-driven with on-board charging

### Non-Marking

Soft-touch foam push pad protects all vehicle types

### Proven ROI

Fast payback through safer, more efficient operations
