

PowerPusher Marine/Boat Trailer Movers™

Battery-Powered Material Handling

E-7.5K TRAILER MOVER™

The **E-7.5K Trailer Mover™** is designed to safely and easily move all types of boat and marine trailers, general purpose trailers and more delivering up to 7,500 pounds of push/pull capacity on tires and casters. The electric motor and compact design allows for moving trailers in tight locations like parking lots, showrooms, and storage facilities without any exhaust fumes. A single operator can do the work of 3-5 people.

- Battery powered, 1200-watt motor delivers up to 7,500 lb. push/pull capacity on tires and casters
- Configurable with a ball hitch, pintle hook, combo hitch and tongue & pin hitch so all types of trailers can be moved
- Up to 1,000 lb. Tongue Weight

OPTIONS

- Extended Range Battery Pack
- Motion Beeper
- Marine Grade Powder Coat
- Trailer Brake Release
- Electric 6" Lift

E-12K TRAILER MOVER™

The **E-12K Trailer Mover™** is ideal for pushing and pulling heavy trailers in tight spaces. Great for moving up to 12,000 lb. boat and utility trailers in and out of crowded, narrow spaces. This electric tug is a powerful, flexible solution for a wide range of trailers. A single operator can do the work of 5+ people.

- 24-volt 400 watt motor delivers up to 12,000 lb. push/pull capacity
- Fully programmable control system with diagnostic features to adjust speed and acceleration/deceleration based on load and environment
- Ergonomic handles with hand guards increase operator safety and comfort
- Electrically powered with on-board charger for long-lasting, efficient operation
- Tongue Weight: Up to 1,200 lb. Tongue Weight with Standard Tires; Up to 1,800 lb. Tongue Weight with Solid Rubber Tires

OPTIONS

- Extended Range Battery Pack
- Motion Beeper
- Marine Grade Powder Coat
- Trailer Brake Release

PowerPusher Marine/Boat Trailer Movers™

Battery-Powered Material Handling

HEAVY-DUTY TRAILER MOVER™

The **Heavy-Duty Trailer Mover™** transports up to 35,000 pounds on tires or casters. It is built to move large boat trailers, industrial and manufacturing trailers and more. Available with multiple hitch options, a single operator can do the work of 10+ people increasing productivity and reducing the risk of injury. Its electric motor and compact design allows for moving trailers in tight locations where it is not realistic to use a car or truck and fossil fuel engines are not appropriate.

- Battery powered motor moves up to 35,000 lbs. on tires or casters
- Configurable with a ball hitch, pintle hook, combo hitch and tongue & pin hitch
- Up to 3,000 lb. Tongue Weight

OPTIONS:

- Dual 14" Solid Rubber Tires
- Snow Chains
- Light Pole
- Motion Beeper
- Extended Height Actuator
- High Tongue Weight Package
- Hydraulic 8" Lift
