If It Rolls... We Can Move It.™

RollMate

 **PowerPusher®**

Electric Roll Mover for Heavy Paper & Web Operations

RollMate™ is a battery-powered electric roll mover designed to safely and efficiently move heavy paper rolls in tight production environments. Built for roll staging, web feed lines, and short-distance positioning, RollMate delivers up to 17,600 lb (8.8 tons) of pushing power - giving operators the control they need without forklifts, air systems, or manual strain.

Ideal For

- Roll staging and positioning
- Web feed and press support
- Packaging and converting operations
- Tissue and paper product manufacturing
- Roll media distributors and web-fed printers

Why RollMate?

Built for Heavy Rolls

Move rolls up to 8.8 tons with a single operator - reducing labor requirements and minimizing handling risk.

Designed for Tight Spaces

An ergonomic tiller handle indexes 200° around the machine, giving precise control where roll access is limited.

Operator-Focused Safety

Intuitive forward/reverse controls, an Emergency Belly Switch, and an offset operating position help improve visibility and reduce operator fatigue.

Versatile Across Roll Types

Handles roll diameters from 18" to 100", from tissue rolls to thick paperboard.

RollMate™ Features & Specifications

TECHNICAL SPECIFICATIONS

Specification	Details
Push Capacity (Level Grade)	Up to 17,600 lb (8.8 tons)
Roll Diameter Range	18" – 100"
Drive System	Electric, 24V DC
Motor	450W
Controls	Ambidextrous Fwd/Rev
Safety	Emergency Belly Switch
Operation	Walk-behind, battery powered

Shown with optional Shuttle Cart Attachment

STANDARD FEATURES

- 450W / 24V DC electric drive motor
- 24V sealed battery system designed for multi-shift use
- Ambidextrous forward/reverse controls
- Tiller handle indexes 200° to work in tight areas
- Emergency Belly Switch for enhanced safety
- Offset operating position to work beside the roll

OPTIONAL EQUIPMENT

- Shuttle Cart Attachment enables RollMate to push rolls onto manual floor track systems
- Replacement battery options for high-cycle and multi-shift environments

Where RollMate Fits

RollMate is a versatile, compact machine for precise paper roll movements. The pivoting tiller handle gives unmatched control and maneuverability. A single operator can safely usher rolls in and out of tight spots where large fork lifts, carts, and complex track and hoist systems can't reach.

See how RollMate™ can improve safety, reduce labor strain, and streamline roll handling in your operation.
